

# Purple Sprouting Broccoli

## Purple Heart

### General Description:

This variety was created to bridge the gap between long season hybrids and new season summer varieties, allowing for harvesting from early May. The plants yield large, purple-headed spears and can be harvested over a longer period than hybrids during this time of year.

### Profile:

Type:	Open Pollinated
Plant uniformity:	Variable
Cropping Period:	Early May
Spear Colour:	Dark Purple

The information that has been provided is an average of the data gathered from various trial locations. Please be aware that variations in the growing environment and climatic conditions can render this information inaccurate, it is intended for general guidance only.
