Pumpkin

Jill Be Little

A prolific yielding, mini ornamental pumpkin, perfect for autumnal decoration due to its size and scalloped shape. Fruits 200-250 grams.

Fright Night F1

New

We are excited to introduce this small dark orange pumpkin to the UK market. It has performed consistently well in our trials in both Surrey and further north.

Gold Speck F1

A prolific cropper with uniform fruits, Gold Speck is a firm favourite for the popular munchkin market. Orange, scalloped fruit approx. 110g. Most fruit set close to the crown early and escape virus flecking.

Rocket F1

Established variety, oval fruited, large vine type with orange colouring and strong handles, mid-season maturity and good yields, dependable.

Baby Bear

This mini pumpkin is the perfect size for young children with a weight of around 1kg and a slender handle. They are great for decorative use and their semi-hulless seeds can be roasted for snacks, while their flesh is ideal for pies.

Racer F1

Our best selling Hallowe'en variety, 5 to 7 kg round fruits with strong handles. Semi-bush variety which matures early, it is consistent and high yielding.

Pumpkin

Cauldron F1 PMR

A hybrid pumpkin with uniform oval fruits, dark orange colouring and strong handles. It is a large vine type with mid-season maturity and good yields. PMR (Powdery mildew resistance)

Cargo F1 PMR

Medium- to large-size Jack-o'-Lantern hybrid pumpkin with strong green handles. It's a bright orange globe shape with fruits about 6-10kg

Wicked F1

A Tozer bred variety, which produces a high-quality, large, 'monster' pumpkin, ideal for Halloween. It is well-suited to cultivation in cooler climates such as the UK and can thrive even in poor summers as it is early to mature. .

Gold Medal F1

Our best-selling larger variety, Gold Medal is a consistent performer with solid, dark orange fruits and strong handles. Excellent for farm shops and PYO.

Wicked

Pumpkin

novelty

Casperita F1

Very attractive, small white pumpkin. Produces a uniform crop with excellent skin finish and strong handles. Stays white for an extended period post-harvest.

Polar Bear F1

Extra-large bright white pumpkin which retains its colour well after maturing in the field. Popular in decorative displays.

Snowball F1

Novel, bright white, small pumpkin with dark green handles. Holds its white colour well under stress. Excellent for PYO sales

Rouge vif d'Etampes

French heirloom variety also known as Cinderella. An attractive, unique shape with deep red colouring makes it a popular choice for novelty ranges.

Crystal Star

New

Crystal Star is an exceptional new variety, the bright white fruits that hold their colour at maturity, without bruising or turning yellow. Pumpkins are a medium size between Snowball and Polar Bear.

Big Moose

Semi trailing producing one fruit per plant. Big Moose has the potential to grow very large given the right conditions. Pairs beautifully with Polar Bear for seasonal displays.

Pumpkin

novelty

Mellow Yellow

Distinctive yellow pumpkin with strong green handles. Mellow Yellow has a weighty blocky round fruit which is uniform in both shape and size, it also has high resistance to powdery mildew

Morticia F1

Unique dark pumpkin with strong handles. Morticia maintains its exceptionally dark colour post-harvest and provides beautiful contrast to orange and white pumpkins. Ideal for autumn decorations. High-yielding and uniform.

TZ 8302 F1

TZ 8302 produces excellent yields of flashy striped fruit, a great variety for supermarkets and farm shop sales.

Its bush habit and attractive colour would also make it suitable for gardeners with limited space.

Zombie

New

The scariest and wartiest Halloween pumpkin available! Pumpkin Zombie is a terrifying variety from Tozer, perfect as a stand-out novelty for Hallowe'en displays. Zombie is a high yielding variety with uniformly warty fruits and thick skin.

Goosebumps F1

Medium sized, warted pumpkin, very popular for Halloween displays. Please note quantity of warts can vary depending on conditions.

TZ 8484 F1

New

British bred TZ 8484 is a larger version of the popular variety Zombie. It delivers uniform fruit size and consistent warting. Perfect for displays and ornamental use.

Squash

Sweet Lightning F1

Flatter dumpling style fruits with exceptional eating qualities. Fruits are orange and yellow striped with delicious sweet flesh.

Celebration F1

Golden striped acorn with deep orange flesh make this a highly decorative ornamental-edible. Prolific cropper on a strong plant. Very good eating qualities.

Honey Bear F1

An attractive variety producing glossy dark-green, acorn fruits. Honey Bear is a semi-bush plant resistant to powdery mildew.

Harlequin F1

Our best selling acorn type, Harlequin is early maturing and produces an abundance of green striped fruits with exceptionally sweet flesh.

Table Star F1 Seed available Spring 2026

Competitive with the best in the market, plus it has 50% higher sugars than the competitive acorns and it is Powdery Mildew Tolerant (PMT).

Winter Sweet Sombra F1

Perfect for the mixed bin selection, Sombra delivers a combination of sweetness, flaky texture and depth of flavour. Best eating quality between 2 and 5 months after harvest.

Squash

Rosie TZ 1867 F1 **New**

Stunning pink kabocha squash with a glorious texture. Pale pink at harvest. It has the potential for long storage with the best eating quality being 2-5 months after harvest.

Large Green Kabocha F1

A very good yielding kabocha type with excellent storage potential, and great flavour. Has pale green stripes with rich, orange, dense flesh.

Crown Prince F1

Renowned for its eating qualities, Crown Prince is an attractive steel grey squash. Large fruit with deep orange flesh and long storage potential.

Onion

Also known as Uchiki Kuri, onion shaped with a deep red skin and thick orange flesh. Fruits average 1 to 1.5kg.

Sunspot F1

Bright red fruited variety with deep orange flesh and good eating qualities. Very attractive and eye catching

Porcelain Doll F1 **New**

Maxima type producing beautiful yields of pale pink fruits, a head turning variety that catches the attention of children and adults alike! Its dark orange, sweet flesh make this a versatile product suitable for both ornamental and culinary use.

Butternut

Hunter F1

Bred by Tozer for the Northern European climate Hunter is up to four weeks earlier to harvest than US hybrids. Fruits average 1-1.5kg with a high level of marketable yield

Sweetmax F1

This processing type has large 3.5 kg fruits with great internal colour and flavour. This traditional shaped butternut grows on a full vine plant and has the potential to produce a large amount of uniform fruits.

Autumn Crown F1

Autumn Crown produces an abundance of attractive early maturing butternut-coloured scalloped fruits each weighing around 2 kg from reduced vines. The long-storing fruits have a unique 'sweet melon' aroma when cut.

Inca Gold

New

Inca Gold is a South American 'Coquina' type bred to be easier to cultivate, in cooler climates. Producing reliable earlier yields of sweet, uniform fruits, it has an exceptional deep orange flesh, small seed cavity and a unique mottled green and tan skin finish. Fruits continue to ripen and increase in sweetness post-harvest.
